Jesus Today: the lifestyle

Daniel 2:2

Energy Policies (Africa)

Policy makers are creating mandates on energy intensity; decreasing intensity to make energy consumption more efficient. Policy makers need to review the energy consumption of the regions, and consider the energy needs of communities that experience low power supplies as well as frequent outages. The energy consumption is not balanced across the regions and the regions need to fulfill energy consumption needs.

Energy Policies (Africa)

Light energy, chemical, water, and natural resources are needed in the regions. Each region sustains itself using provided resources, but the energy consumption needs have placed demand on all energy sources and resources. Each region needs sustained energy for residential use, commercial use, transportation use, industrial use, and agricultural use. Regions need electricity plant, combined heat and power plant, and oil refinery.

Energy Policies (Africa)

Daniel 2:2 “so the king summoned the magicians, enchanters, sorcerers, and astrologers to tell him what he had dreamed.” The spiritual principles for providing power and for sustaining structures for industrial use or for commercial use are important to discuss and review in reference to energy consumption and energy sustainability and development. The wise were summoned to use their knowledge to find solution to a problem, but the solution was found when all gods or powers were brought in judgement. The preeminent God (the Most High) used a man, Daniel, to bring the solution; one that benefits the ruling counsels, but also considers the lives of governing officials and community members. Today, He still speaks as the God who reveals mysteries and solutions to hard problems. He still uses men and women to bring His judgements and statements on a matter to the presence of all gods and all men.

Daniel 4:10-19

Energy in sciences (Nations)

Kings and rulers of the earth are exposed to power and distribution of power sources; great men and women who discovered many science theories did so in reference to the energy sources and energy balances they experimented on. The exposure to spirits in authority to the use of power sources or spirits that supply an understanding are important to discuss today. There is a spirit called The Holy Spirit.

Some possibilities in sciences have been sustained, because of the spirits of knowledge that gave an understanding to proven scientists and experiments, and theories of the past; the spiritual equilibrium for methods of today must be discussed and reviewed. A discussion occurred between King Nebuchadnezzar and Daniel about a matter in Babylon, because the methods of solutions were being considered among the wise.

King Nebuchadnezzar saw a vision involving the heavens and earth and by his knowledge and understanding he consulted the appointed representative of the God that revealed the mystery or solution to Daniel. Through the knowledge and understanding of the Holy Spirit called the excellent spirit found in Daniel's spirit man or inner most being, he was able to discuss the impending events pertaining to the land of Babylon. Daniel 4:10-19 "These are the visions I saw while lying in bed...(King Nebuchadnezzar). There before me was a holy one...the Most High is sovereign over all kingdoms... 'my Lord if only the dream applied to your enemies and its meaning to your adversaries'(Daniel) The counsels, wise men, and kings and queens are charged by The Lord Most High to consider His words in reference to knowledge and understanding that is used in the nations.

Official Decrees and Prophetic statements concerning the industries

In Jeremiah chapter twenty three verse six the bible states, “In His days Judah will be saved and Israel will live in safety. This is the name by which he will be called: The Lord our Righteous Savior.

- Companies and buyers will invest in thousands of dollars in local and african markets.
- Policies of courts and governing counsels will affect tariffs and royalties in african markets.

- Companies are looking for representatives of their assets in african markets
- Companies will be revived by investments in local and international markets

In Jeremiah chapter twenty three verse fourteen, “ and among the prophets of Jerusalem I have seen something horrible: They commit adultery and live a lie. They strengthen the hands of evildoers..”

- God wants His children to be faithful
- In Jeremiah chapter twenty three verse five the bible states, “The days are coming declares the Lord when I will raise up for David a righteous Branch, a King who will reign wisely and do what is just and right in the land.
- God wants to heal students and graduates.
- God will remember the students and graduates building their professional career.

Inspirational Prayers

- In Daniel chapter nine, Daniel sought the Lord and made intercession about Jerusalem. He spoke to God about the desolation which was set for seventy years. Daniel made a special prayer to the Lord that could bring the mercy of God upon the land of Judah. Daniel chapter nine verse eighteen says, “O my God incline thine ear, and hear; open thine eyes and behold our desolations, and the city which is called by thy name...”

- Daniel 1:20 And in all matters of wisdom and understanding, that the king enquired of them, he found them ten times better than all the magicians and astrologers that were in all the realm.
- Lord make me greater and wiser than all the magicians, sorcerers, wickens, soothsayers, occultists, and demonic powers in all the realm in Jesus name Amen.

Prayer Points

- Lord grant me the holy ideas of teachings of scripture and subjects of skills. Lord grant me the holy ideas of teachings to build up the boys and girls, men and women, and students in the house of God in Jesus name
- God reveal to me the pain of the nations in Jesus name
- God grant Delta Omnus the grace to understand and regulate the realm of languages. God open the speaking gates unto Delta Omnus in Jesus name
- Holy Spirit help me to obtain academic success in Jesus name
- God help me to serve in a pleasing way.
- Lord Jesus, I will manage the hard problems of regulation in developing economies. Let my prayers be answered by fire in Jesus name

Jesus today:the lifestyle

Engaging Reverence And The Living God (1)

A maturing christian like you should always have the necessary spiritual awareness for the environment, a specified time, or predestined life God designed for you. To be spiritually aware is to understand that God is truly holy. Yes, in the midst of all the spiritual glamour and the incredible specificities that garnish our results in blessings, mercy, and understanding of God's ways.

Engaging Reverence And The Living God (2)

We ponder over the path he took us on and we judge Him holy. We gain an understanding that propels us to fine tune our endeavours, doing away with lusts and deviations, and replacing them with holy motivation and following the Holy Spirit to the destination. Let the life of Jesus Christ manifest in you, then into your life.

Daniel chapter one verse eight

“But Daniel resolved not to defile himself with the royal food and wine, and he asked the chief official for permission not to defile himself this way.” Daniel's choice was pivotal, and its puzzling to think of his reasoning. Did Daniel see the spiritual forecast for livestock and poultry? Perhaps the wine was undesirable too. Certainly, we learned in Apostle Paul's teaching that eating food sacrificed to idols is not wise; especially in regards to the holiness of God, and the sanctification of your body. Yes, Daniel lived in a different time than Paul, but the truth remains evident even after both men have passed on. Daniel knows the history of Judah, and how they were in a similar situation before, long ago, when the Assyrians laid siege on the city. Sennecherib swore that the Israelites would be rationing excrement and urine for survival. Judah prevailed against the Assyrians. Daniel saw the meat and wine as an unapproachable meal; something that goes against God's ways. Simply, Daniel loved God, even in Babylon.

Praiseworthy

Pastors Obioma and Franka Agada are my parents and I appreciate their lovingkindness, they always encourage me in the Lord. Also, they instill in me spiritual insight that has brought me through challenging times. As their son I've learned to trust them in my decisions and in my Christian life. Their love for the Lord's people has been an aspect of their ministry that I am privileged to capture; storing God's word in my heart.

My parents are great teachers. They instilled in me Godly virtues that will carry me through life's battles. Their togetherness exemplified in their Godly marriage encourages me to have a zeal for marriage. As they Pastor our church New Life Chapel, I pray that God will make them to soar above every challenge to the glory of the Lord. I love my parents and I will always hold fast to the teachings of scripture they have given me.

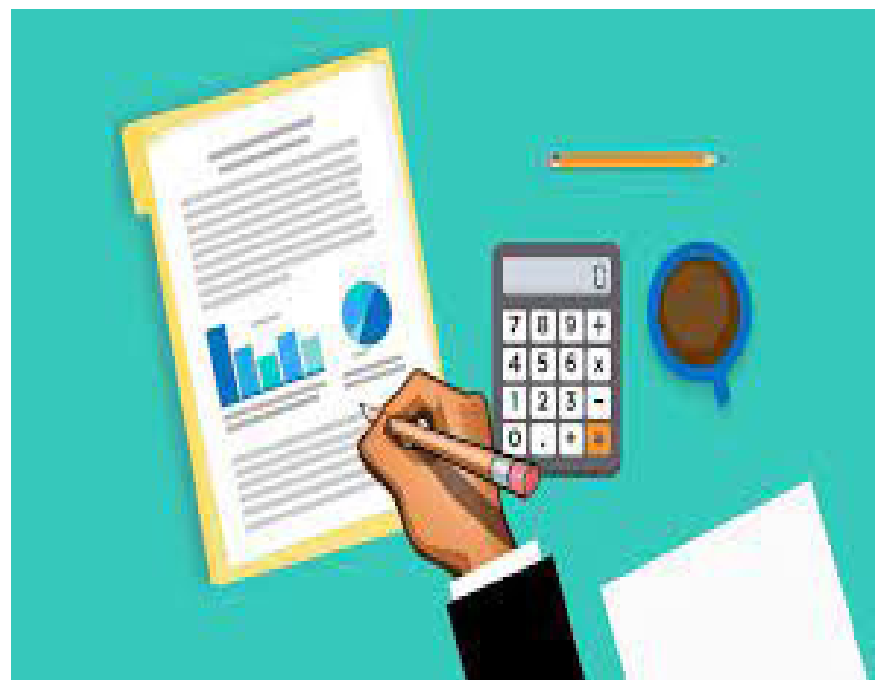

In Jeremiah chapter twenty three verse four the bible says, "I will place shepherds over them, who will tend them, and they will no longer be afraid or terrified, nor will any be missing, declares the Lord." Psalm one verse one to three says, "Blessed is the one...that person is like a tree planted by streams of water, which yields its fruit in season and whose leaf does not wither-whatever they do prospers." The scriptures are revealed in them through their parenting, ministry, and work ethics. I pray that God will bless them as they strive to do God's work in the nations of the world. I decree and declare that they will raise families that love God and that want to serve Him just like they do.

Fiscal Year Reports

The prayer-centered theme for January until March was, Lord grant me the holy ideas of teachings of scripture and subjects of skills, in Jesus name I pray, amen. In Jeremiah chapter twenty three verse eleven God judges the ungodliness of prophets and priests, so we used a scriptural approach to exemplify godliness as prophets and priest of the Lord. We used statistics, the population standard deviation to measure our productivity in activities.

During our fiscal year of April until June, we researched energy. We attended church services, webinars and made real world problems about energy. Also, we updated our research in Delta Omnis Energy, our efforts to bring clean energy to developing economies. Next, we created a song of worship to God about hope in Jesus Christ and his holy judgments. Additionally, we received insight at the Fire conference, great teachings about temperature.

In fiscal year of July until September we focused on our compositions for the music album The Month Of His Mercy. We edited our music recordings, our video composition, and our writings of poetry. Also, we continued in our development of the Omnis Letter, a nomenclature or system of weights and measures. With the help from the Holy Spirit we developed our spiritual tongue for naming the letters and a selection of prayers that grant audience with God. We intend to use the Omnis letter in calculations which will involve the Scriptures in solutions. Additionally, we researched the USDA Agricultural projections and created a project: Delta Omnis Farm. we gathered information about poultry forecasts and international agricultural markets in developing economies. Lastly, in fiscal year October until December we are creating projects that contain information and calculations from each fiscal year, because we will publish reports.

Fiscal Year Reports

The population standard deviation formula helped us to create a graph of the activities in Delta Omnus. Also, we made estimates about mineral investments in the local and international markets. We create sketches of instruments we want to design. we create sketches of lamps, musical instruments, tools, and cities. Instrument design is our plan and we are conducting research to achieve our goals.

We spent about two million seconds on research about instrument design. In the first two months of the fiscal year, we prayed about the months ahead and God has surely answered our prayers. We are studying statistics which grants us insight in our daily works. Inferential statistics forecast, descriptive statistics, and estimates are the tools used to bring new information to readers.

The link to the investments graph is below.
